CEO & BOARD CHAIR UPDATE

In 2021 we continued to refine our skills in doing more with less, forging ahead in uncharted territory, and laying the foundation for a sustainable future. We had some major accomplishments over the year including launching our first endowment at the Yampa Valley Community Foundation with a goal to raise \$1 million over 3 years, we merged The Haven Assisted Living into Northwest Colorado Health after many years of maintaining separate entities, and launching a much needed school-based health program in response to community need. We're so proud of the resilience we were able to exhibit as we adapted to the rapid changes brought on by the pandemic while continuing to provide services to those most in need. We remain future-focused and are committed to growing and evolving the agency's services alongside our partners in Northwest Colorado.

We would like to express our deepest gratitude to all who continue to support our mission throughout the region. We are your partner for life.

Best regards,
Stephanie Einfeld, CEO

Larry Jenkins, Board President

IMPACT

1 in 3 people
in the Yampa
Valley utilize
our services

We employ
170 people in Moffat
and Routt Counties

**99% of Home
Health patients**
were screened for
depression

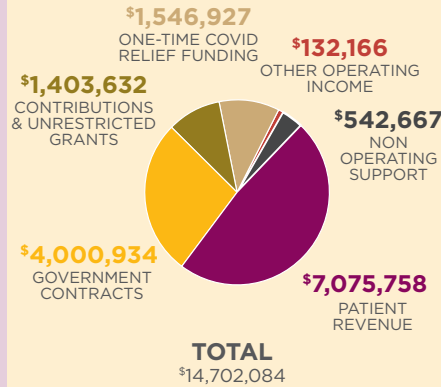

Two new **mobile
school-based
dental sites** opened

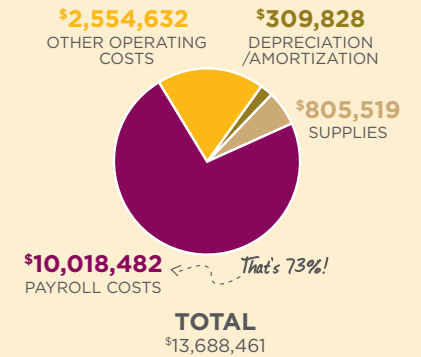

FINANCIAL SUMMARY

As a non-profit, our responsibility is to return benefit to the community and remain solvent.

THE STORY OF 2021: EVERYDAY HEROES

The ongoing theme of the COVID-19 pandemic remained focused on our staff, the everyday heroes. While we may have moved from response to repair, our Assisted Living, Community Health Center, Home Services, Prevention Services and Administrative staff continued to step up and care for those in our community who needed us most. We were not alone in experiencing one of the highest rates of turnover in our agency's history. However, it taught us to focus inward and prioritize our staff's happiness, well-being and fulfillment in work. We spent much of the year building and launching a robust recruitment and retention plan, all with input and guidance from our frontline employees. Our staff's ability to bring our different life experiences, stand in different positions, listen to each other, and then move forward in solidarity is what allows us to serve our community at the highest level we can.
