

Your partner for life

Join us in Building a Healthier Community

We are committed to improving the quality of life for all Northwest Colorado residents by providing comprehensive health resources and creating an environment that supports community wellness. Please join us in *funding a healthy future* by helping us reach our \$1 million goal by 2025. Your contribution to our endowment provides support in our community today, tomorrow and beyond to ensure the future of health care in our valley.

Your support will provide access to care for our community, including traditionally marginalized and underserved populations, from beginning to end of life.

Our History and Values

For more than 57 years, Northwest Colorado Health has supported community wellness through a range of high quality health programs and services helping residents of all ages, income levels and cultures live as healthy as possible. No other organization offers the breadth and depth of community health supports, including integrated team-based care, regardless of ability to pay. We are the safety net provider for health services in Northwest Colorado.

Founded in Steamboat Springs, Colorado in 1964, we started out as a small agency providing only public health services and home health care. We are committed to responding to the needs of our community, and for that reason, we have grown to provide primary care, home health, hospice, and wellness and prevention services to all members of our community. We operate The Haven Assisted Living Facility, two Federally Qualified Community Health Center (FQHCs) in Craig and Steamboat Springs and two full-service safety net Dental Clinics in Craig and Oak Creek. ***We provide comprehensive, integrated services to those in need regardless of their ability to pay, serving roughly 30% of our regional population each year.***

Our work is guided by the following values:

- Access to health is everyone's right
- We focus on health, not just healthcare
- Compassionate, personalized care improves outcomes
- We deliver only the highest quality programs and services
- We lead by example

Our beliefs make us stand out from others and help us fulfill our values:

- We serve anyone, regardless of their ability to pay
- We provide language services in all programs, reducing linguistic and cultural barriers
- We are deeply committed to addressing systemic barriers to accessing healthcare and continue to focus on health equity as a critical component of our work
- We provide services in homes, our clinics and the community to meet people where they are

At Northwest Colorado Health, we believe that everyone deserves the chance to achieve their best health. Every day, we partner with individuals throughout Northwest Colorado at their homes, in our clinics, and in the community because healthy people and families create a healthy community. We are focused on enhancing access and filling gaps in healthcare for all people through every stage of life.
